SkillWise Rock n Roll Disco (July 2021)

This year's midyear disco was a great success. With a rock and roll theme, the night was full of great music, socializing with friends, neat goodie bags, top notch dance competitions and epic prizes.

Here are a few photos of the evening:

Christchurch City Council Disability Forum.

In April we went to the Christchurch City Council Disability Forum. It was about accessibility in the city. We talked about cars, busses, parking, and buildings. We were nervous because we hadn't been to council before, but we spoke at the meeting in front of everyone and told them our views and experiences.

The forum was really enjoyable. We want to go to more council meetings. It is important that the Council know what we think and what we experience because this is our city, too!

Black Widow: Film Review. *By Robert, Ben and Michael.*

The film takes place in the middle of the Avengers series. The movie was very well directed. The movie followed Black Widow, who was an outlawed Avenger on the run from the government. Michael particularly liked the helicopter scene which had epic stunts and was highly entertaining. There was very cleverly choreographed action scenes throughout the film. The movie was quite tense and breathtaking. There was lots of humour throughout between Black Widow and her sister. Michael left the screening with a feeling that if he was mugged, Black Widow would come and save him, which is the mark of a great hero film. In the near future there are more Marvel movies coming out to look forward to. Keep an eye out for Spiderman: No Way Home (December 26 2021) and Dr Strange: In the Multiverse of Madness (March 24 2022).

The three of us reviewers agree that **5 stars** is a fair score for this great flick. Get out and support the film if you can! ★★★★★

Gardening Section: The gardening groups have been moving plots and the final thing we needed to shift was our tunnel house. It took a whole day to deconstruct the tunnel house, we even had to remove the foundations! It is now assembled on our new plot and it is looking great! They also repainted one of the large seats in funky colours, which really spruced things up (see the front page for a picture of this). Well done everybody for the amazing team work.
